Introduction

Our focus is to help you promote your independence so you can live a more fulfilled, enjoyable life with strong links to your community. This Adult Social Care Directory contains useful information for younger and older adults, carers and families. Here, you can find information about active living, staying connected and money matters, as well as a range of services to support you and help keep you independent.

Where you need support, we will make it as easy as possible to get the right support, at the right time and in the right place. This will mean working closely with local community groups, the voluntary sector, your carers and family to support you.

To help you to remain living in your own home, we will work alongside organisations such as healthcare providers to develop local, community-based support. This will include, wherever possible, reducing avoidable hospital admissions as well as the reliance on permanent residential care.

The type and level of support you can expect will adapt and differ as your needs change. We will have conversations with you about how your needs may best be met.

This includes providing advice and guidance, signposting you to available resources and assessing your care and support needs. If you fund your own care, we also have information available to help you to make informed decisions about your future.

There are three key stages of support:

1. Helping you to help yourself (see section 1: pages 6 - 14)

Connecting you with support and information you can access in your local community and helping you to make the best use of your existing networks.

We will make sure that you have access to information and advice to support your wellbeing before you need formal social care services. This is a universal offer to all, whether you pay for your care and support yourself, or are state-funded.

We will focus on your skills, experience and networks of existing support and see how these might help in the future. Finding out what support is already available can help you to remain independent and stop you entering the social care system earlier than is necessary.

You may find it enough to talk through difficulties you are experiencing and to have assistance to consider support options that might already exist. Or you may need more help and professional advice on how to access support in the community or issues such as how to get about the house safely or to keep yourself active. If more support is needed, we will move to the next step with you.

2. Helping you when you need it (see section 2: pages 15 - 20)

We will work with you in a timely way and support you to make your own decisions about short-term support to help you maintain or restore your independence.

People often approach us for help when they are desperate or in crisis. We will act quickly to help prevent the situation getting worse. We will help you through the time of crisis and then work with you and your family when things are more stable to consider what, if any, ongoing or long-term needs require support. We know that what most people want is to live independently in their own home.
During times of crisis, we will avoid conversations about long-term services such as care homes following a stay in hospital. Instead, we will ensure that you are informed about the options available to you that might help you regain your independence and live at home.

Equally, we will look at short-term options when you are not in a crisis. If you only need help over the short-term to regain your independence, we will work with you to achieve this. By avoiding making long-term decisions too soon, we can avoid the risk of inadvertently reducing your independence instead of promoting it.

We will agree some short-term approaches with you that might only involve a few weeks of support until you feel confident and able to go forward with fewer or no formal interventions.

By working with you to help yourself and putting support in place for short periods, we can start to build a more personalised offer for you and help address your specific needs.

3. Helping you to be independent over the longer-term and keeping your progress under review (see section 3: pages 20 - 35)

We will work with you to set achievable goals to promote your independence and wellbeing. We will help you achieve what is important to you by keeping your progress under review.

Even after helping you to help yourself via community resources and trying some short-term options such as rehabilitation, you may still have needs that require a longer-term solution. We will look at what you might need in the longer term, whilst remembering the purpose of any support will be to help you maintain or restore your independence, helping you to live as settled and fulfilled a life as possible.

A support plan is the tool used to set goals to promote independence and wellbeing. By understanding what you want to achieve and setting short-term goals to help you get to where you want to be, the right balance can be achieved between support for as long as is needed and increasing your abilities and independence over time. This means we will have open conversations with you about your support, including reducing this over time if and when you regain or return to independence.

We will also make sure we keep your progress under review so that you are getting the support you need.

If you have the potential to be more independent, we will support you to help make this happen and achieve your personal goals.

We will have conversations with you, your carers and family about your aims for the future and your expectations about ongoing formal social care. This will include how we can work together and share responsibility with them and other providers in meeting your needs.

If you contribute towards the cost of your care, we will ensure you are only paying for what is required. We will also work with you, so you are informed about any benefits you are entitled to.

We will use our professional knowledge and experience to determine when it is the right and safe time to conclude support. We can do this by helping you to set your ambitions for what your life could be like in the future and identify realistic steps to achieve this.

For care and support services in Nottinghamshire:

0300 500 80 80
Section 1: Helping you to help yourself

The best way to stay independent and well is to take care of yourself by:

- living a healthy lifestyle;
- maintaining a safe home environment;
- understanding and managing your health conditions;
- looking after your mental wellbeing; and
- staying busy and connected with others.

You can use: www.nottshelpyourself.org.uk to find a whole range of organisations, opportunities and resources in your local area to help you look after yourself.

Active living

All types of physical activity, including walking, gardening and strength and balance exercise classes can significantly improve mobility, protect against ill-health, enhance mental wellbeing and lower the risk of cognitive decline, as well as keeping you more independent for longer. You should also try to break up long periods of sitting with light activity, since sedentary behaviour is considered an independent risk factor for ill health, no matter how much exercise you do.

Find out more about the benefits of being active at: www.nhs.uk and try the NHS Fitness Self-Assessment to discover if you are active enough. If you are over 65, you may be interested in the Department of Health’s useful factsheet which includes physical activity guidelines: www.nhs.uk/Livewell/fitness/Documents/older-adults-65-years.pdf

If you are not used to exercising, you should start gently and gradually increase the amount you do. There are various activities to help you get and stay active in Nottinghamshire. Find out about activities, clubs and groups at: www.nottshelpyourself.org.uk

Other key active ageing initiatives include:

Stop smoking

We all know smoking is bad for you. There are lots of reasons to stop smoking and there’s a range of local support that can help you by:

- assessing what’s going to help you;
- explaining what’s happening to your body as you give up; and
- offering free stop smoking aids, like nicotine replacement therapy or the stop smoking medication, Champix.

You can get this support from Smokefree Life Nottinghamshire.
Tel: 0115 772 2515 or 0800 246 5343
Text: ‘QUIT’ to 66777
Email: info@smokefreelifenottinghamshire.co.uk
Web: www.smokefreelifenottinghamshire.co.uk

Health checks

An NHS health check only takes 20 minutes and can help you spot any health risks before they become an issue. They are aimed at people aged 40 to 75 and they assess your risk of developing heart disease, kidney disease, type-2 diabetes, stroke and dementia.

Should any issues be identified, you’ll get plenty of advice and support, so you can make changes to the way you live.

To get a health check, contact your GP. For more information, visit: www.nhs.uk
**Eating well**
If you eat too many foods that are high in fat and sugar, and you’re not as active as you should be, you’re more likely to put on weight. Becoming overweight or obese increases your risk of getting type 2 diabetes, heart disease and some cancers.

Whether you’re trying to lose weight or just live a healthier life, eating well has lots of benefits, from improving your health to saving you money.

You can still enjoy the foods you love, by making some small changes and food swaps to help you cut back. Find out more at: [www.nhs.uk](http://www.nhs.uk)

**Staying warm**
Cold homes can have a significant impact on your health. Visit: [www.ageuk.org.uk](http://www.ageuk.org.uk) or: [www.nhs.uk](http://www.nhs.uk) for help on keeping warm and staying healthy in the cold.

Top tips for keeping warm:
- avoid going out in bad weather – if you must go out, wrap up in plenty of layers;
- try to be active during the day;
- get heating, radiators and boilers serviced;
- use a room thermometer (your living room should be between 18-21°C); and
- have at least one warm meal each day and drink warm drinks.

**Falls prevention**
If you are an older person, a fall can often result in a multitude of problems, including admission to hospital or residential care, loss of confidence or independence, distress, physical pain and even death.

Falls are not an inevitable part of getting older and experts believe that the majority of falls could be prevented with tweaks to your lifestyle and environment and doing exercises to improve your strength and balance. The ‘ENGAGE’ programme offers a series of affordable exercise classes for over 55s. Visit: [www.everyonehealth.co.uk/engage-falls-programme](http://www.everyonehealth.co.uk/engage-falls-programme)

There is a range of preventative measures that can reduce the risk and impact of falling. Please consider the 10 Top Tips for Staying Steady below in association with the national ‘Get Up & Go’ guide.

**10 Top Tips for Staying Steady:**

1. **Exercise regularly** – focus on activities that challenge your balance and strengthen your legs and upper body, such as gardening, dancing or tai chi.
2. **Check your eyes and hearing** – go for regular sight tests and report difficulties you have with hearing in order to identify problems affecting your balance.
3. **Look after your feet** – wear well-fitted shoes and slippers and report any foot problems to your GP or podiatrist.
4. **Review your medication** – certain medicines can make you feel faint or affect your balance. Please let your GP or pharmacist know if you ever feel like this.
5. **Get enough vitamin D intake** – vitamin D is essential for keeping bones strong – the best source is sunshine.
6. **Eat a diet rich in calcium** – calcium also helps to keep your bones strong. Good sources are dairy foods, fortified soya products and canned fish with bones, for example sardines.
7. **Check your home for hazards** – make sure your home is hazard-free, well-lit, warm and don’t climb up to reach things out of cupboards.
8. **Contact your GP** – if you’ve had a fall or are worried about falling, tell your GP. There are many ways to help you feel confident again.
9. **Remove clutter** – mop up any spillages quickly.
10. **Get a free home safety check** – contact us on: 0300 500 80 80 to find out more. Our Handy Persons Adaptations Service can provide help with essential minor adaptations and small practical jobs. See page 14 for more information.

For more information on falls, and to download the Get Up and Go Guide, visit: [www.nottinghamshire.gov.uk/falls](http://www.nottinghamshire.gov.uk/falls)
Living with dementia

Dementia is the term used to describe a range of brain disorders whose symptoms include a decline of brain function and memory. The most common types of dementia are Alzheimer’s disease, vascular dementia and dementia with Lewy bodies (a condition that has symptoms of Alzheimer’s and Parkinson’s diseases).

Dementia can affect people of any age but is most common in older people, particularly those aged over 65. With the right support, many people with dementia continue to lead active, healthy lives. There are varied services and community groups across Nottinghamshire supporting people with dementia and their carers. They include memory cafés, arts and music groups, creative therapies and mental health services and support for carers.

To find information about dementia services and support groups near you, visit: 
www.nottshelpyourself.org.uk

Alzheimer’s Society also has information about services and support groups, visit: 
www.alzheimers.org.uk

Mental health and wellbeing

Mental health issues are widespread and common, and people can and do recover. They range from the worries we all experience as part of everyday life to serious long-term conditions.

There is a variety of support available to help you maintain good mental health and wellbeing:

- The NHS website has a range of information and advice on mental health, including tips for good mental health.
- The NHS ‘Every Mind Matters’ campaign promotes ways for people to take care of their mental health through managing stress and anxiety. The campaign gives expert advice, practical tips and a personalised action: www.nhs.uk/oneyou/every-mind-matters

There are five steps that we can all take to improve our mental wellbeing:

- connect with those around you;
- be active;
- take notice – try savouring the moment;
- keep learning – try something new; and
- give – volunteer your time, do something for someone else.

We work with our partners to provide a range of support for people with a mental health issue to help them live as independently as possible. We work together with people experiencing mental health difficulties to find new ways to meet their needs. This is known as co-production – a way of working together to make sure the services available are suitable for the people who need them.

Co-production can help people to make new friends and socialise; join a group or club; share skills and experiences or develop a project in their area. Find out more at: www.nottinghamshire.gov.uk/care/adult-social-care/mental-health-wellbeing/co-production

Reading Well books on prescription

The Reading Well books on prescription scheme helps people to understand and manage their health and wellbeing through helpful reading and is available in libraries throughout Nottinghamshire. Books can be recommended or prescribed by GPs or other health professionals and are also available to borrow from the local library without a prescription.

Find out more about the scheme at: www.inspireculture.org.uk/reading-information/health-and-wellbeing/reading-well or pop in to your local library.

Mental illness

You may experience changes in mood or behaviour at times of stress and emotional upset – this is quite normal. Physical health issues, particularly long-term conditions, may also affect your mental
wellbeing. There are services which provide psychological (talking) therapies which can help you for common conditions such as depression, anxiety, panic, phobias, obsessive compulsive disorder (OCD), trauma and stress.

If you are concerned about your mental health, or that of someone you care for, the first thing to do is speak to your GP. They will help you decide what support is needed.

www.nottshelpyourself.org.uk provides information about useful support and organisations to help you. Other sources of support around mental health include:

**Anxiety UK**
Supports those living with anxiety and anxiety-based depression by providing information and services. Open Monday to Friday, 9.30am to 5.30pm.
Tel: 0344 477 5774
Text: 07537 416905
Email: support@anxietyuk.org.uk
Web: www.anxietyuk.org.uk

**It’s Good to Talk – British Association for Counselling & Psychotherapy (BACP)**
Helps you learn about the benefits of counselling and psychotherapy and provides a directory of UK counsellors and therapists.
Web: www.itsgoodtotalk.org.uk

**Mind**
Information on mental health conditions, where to get help, medications and alternative treatments and advocacy. Open Monday to Friday (except bank holidays), 9.00am to 6.00pm.
Tel: 0300 123 3393
Text: 86463
Email: info@mind.org.uk
Web: www.mind.org.uk

**Rethink Mental Illness**
Provides expert accredited advice and information to people affected by mental illness, including carers and family.
Web: www.rethink.org

**Samaritans**
Support and someone to talk to. Open 24 hours a day, every day.
Tel: 116 123

**Sane**
A UK mental health charity improving quality of life for people affected by mental illness.
Web: www.sane.org.uk

---

**Staying connected**

Feeling lonely doesn’t always mean you have no-one nearby. You may be surrounded by friends and family but still feel lonely.

You may be lonely if you:

- have had a bereavement;
- have moved to a different area;
- are missing the social contact you had at work; or
- have health issues that make it difficult to get out.

There are several things you can do to tackle loneliness. You may want to consider joining a local group, taking up a new activity or finding out about befriending services. Find details for your local area at: www.nottshelpyourself.org.uk

We also have a service called Connect which can help you combat loneliness. See page 15 for more information.
Veterans Together Network

If you are aged 65 or over and have been in the Armed Forces, you can join our Veterans Together Network. We are helping to set up groups around the county to reduce loneliness and get veterans involved in activities like music, cookery, gardening and trips out. We are also encouraging veterans to share their experiences through photography, art and a war memories archive.

To join the Network, visit: www.nottinghamshire.gov.uk/supporting-armed-forces or phone: 0300 500 80 80.

Coping with bereavement

The death of someone close can be devastating. Everyone experiences grief differently and how you react can depend on your age, personality, circumstances, cultural background and religious beliefs.

There is no right or wrong way to grieve. You may initially feel shocked, numb, guilty, angry and afraid. These feelings may change to feelings of sadness, loneliness – even hopelessness and concern about the future.

Many people worry that they will forget the person who has died – what they looked or sounded like and the experiences they shared. There are some things you can do to help keep their memory alive:

- keep a photo album;
- save some of their special possessions; or
- commemorate them, by planting a tree, paying for a park bench, or making a donation to a charity.

One of the most helpful things is to talk about the person who has died and your relationship with them. You may wish to talk to your family, friends,

Struggling to stay independent?

Feeling lonely and isolated?

a faith/spiritual adviser, your GP or a support organisation.

There are also many organisations for people who need friendship or wish to get out and keep active and busy. Some organisations are specifically for people who have experienced bereavement, but many are for people who just want to socialise and take part in activities. Find out more at: www.nottshelpyourself.org.uk

For more information on end of life care and registering a death, see the information on page 32.

---

**Safe at home**

**Fire safety**

There are over 700 fires in homes in Nottinghamshire every year. Having a smoke alarm fitted could save your life.

If you have any concerns about fire safety or need help fitting smoke alarms, contact Nottinghamshire Fire and Rescue Service on: 0115 967 0880 or email: enquiries@notts-fire.gov.uk

Handy tips:

- have a smoke alarm fitted and ensure it’s tested every week;
- make sure ovens, hobs, heaters etc. are switched off after use;
- keep clothing away from heaters;
- ensure cigarette ends are put out;
- never smoke in bed;
- always keep keys in their usual place;
- check everything’s off before going to bed and close all doors; and
- keep escape routes clear of obstacles.

**Safe and sound**

Burglaries can leave a lasting impact on victims and the possibility of a repeat burglary is sometimes the greatest fear, especially among vulnerable people. Every year, specially trained carpenters who work for the police visit people’s homes to fit security door and window locks to the homes of elderly burglary victims. At the same time, people are given tips on how to prevent crime.

Handy tips:

- make sure all your windows and doors are locked properly if you are going out;
- do not leave windows open unless you are in the room;
- keep outer doors locked at all times and remove the key;
- always use a door viewer/chain (if fitted) when answering the door;
- keep any spare keys to the property in a safe place; and
- cancel any deliveries if you are going on holiday or into hospital.

If you have any queries about crime prevention, contact Nottinghamshire Police.
Tel: 101
Web: www.nottinghamshire.police.uk/advice/prevention

**Doorstep crime**

We advise that you don’t answer your door to uninvited callers, who may be selling goods or offering to carry out repairs on your property.

Advice for dealing with uninvited callers:

- if it’s someone important, they will have your contact details and will send you a letter;
- if you feel the need to speak to the caller, speak through an opened window; and
- if you are expecting a caller, check their identity – any genuine trader won’t mind you taking their card and ringing the phone number from a bill/phonebook. Don’t call the number on their card as this may be part of the scam. If they refuse to give you their card, be very suspicious.

For consumer advice, or to refer something to Trading Standards, contact the Citizens Advice Consumer Service.
Approved trader scheme
We work in partnership with Checkatrade to help consumers choose a trader they can trust and rely upon.

All traders have undergone rigorous checks. The details of approved traders can be found at: www.checkatrade.com or by calling: 0333 014 6190.

Alternatively, ask family and friends if they can recommend anyone. It is advisable to obtain three written quotes before employing a tradesperson.

Nominated Neighbour scheme
If you live in Nottinghamshire, the Nominated Neighbour scheme can help to protect you from unscrupulous doorstep callers and rogue traders. You can nominate a trusted neighbour to speak to any doorstep callers on your behalf. This means that you don’t need to answer the door. You can pass the caller a card and your neighbour will deal with the caller instead.

Nominated Neighbours don’t have to be at home – they can deal with the doorstep caller over the phone. The Nominated Neighbour will check the reason for the visit and confirm the caller’s identity.

If you, or someone you know, may benefit from the scheme contact the Citizens Advice Consumer Service on 0345 404 0506 or visit www.nottinghamshire.gov.uk and search ‘nominated neighbour’ for more information.

Nottinghamshire Neighbourhood Watch (NottsWatch®)
Nottinghamshire Neighbourhood Watch aims to prevent and reduce crime and anti-social behaviour and to develop stronger, more supportive and safer communities.

Find out about neighbourhood watch schemes in your area or find out how to set up a new scheme: www.nottswatch.co.uk/LocalArea
Money matters

If you need support and guidance on any financial matters or claiming benefits, there are organisations that can help you; visit: www.nottshelpyourself.org.uk for a list of financial organisations that can provide support.

You can also contact us on: 0300 500 80 80 and we can signpost you to information about financial planning, Powers of Attorney and Courts of Protection.

The online benefits directory can help you find out about welfare benefits and whether you are eligible. Visit: www.nottinghamshire.gov.uk (search ‘welfare benefits’) or phone: 0300 500 80 80.

You receive benefits if you:
• have a long-term illness or disability;
• care for someone;
• are unemployed or work part-time;
• are having a baby;
• have a disabled child; or
• are over pension age.

For information about paying for care, see page 28.

Where you can get support

You may be finding it harder to do some of the tasks you used to do easily – like dressing, washing or getting out and about – due to your age, disability or a long-term condition. This Directory gives you an idea of the range of support that is available in Nottinghamshire to help you stay living independently at home.

There are a number of services that can help you to maintain your independence, without the need for an assessment:

Nottinghamshire Help Yourself
The first place to look for support is: www.nottshelpyourself.org.uk/ Notts Help Yourself enables you to search for the information you’re looking for in one place such as care and support providers, activities, events and groups in your local area. If you don’t have access to the internet, you can visit your local library where staff can help you find the information you need. Or you can phone Nottinghamshire County Council on: 0300 500 80 80 where our advisers can guide you through the options.

Meals at home service
County Enterprise Foods provides an award-winning service, delivering great value hot and frozen meals across Nottinghamshire. The service offers a range of over 70 meals. Dinners are nutritionally balanced and made with fresh ingredients and seasonal vegetables.

County Enterprise Foods offers:
• breakfasts, dinners and teas;
• meals for special diets;
• free safe and well checks;
• home from hospital hampers; and
• free delivery.

The delivery team go the extra mile, for example, plating your meal or bringing in the post. They provide free ‘safe and well’ checks when they visit and will call the office if you need help. The home from hospital hampers mean when you return from a stay in hospital, you don’t need to worry about shopping. Choose from the list of competitively priced useful food items (for example tea, milk and butter) and they will be delivered to your home, along with your meal.

For support in Nottinghamshire, visit: www.nottshelpyourself.org.uk or call: 0300 500 80 80
Handy Persons Adaptations Service

The Handy Persons Adaptations Service provides the help and support you may need to keep safe and secure in your home, with low-cost, high-quality adaptations and small practical jobs.

The service is available to Nottinghamshire residents aged 60 or over or who have a disability. The work is carried out by professional traders who have been approved by ‘Checkatrade’ in partnership with our Trading Standards Service.

The traders will carry out small jobs or minor adaptations to your home to reduce the risk of a fall or help you remain living independently. Jobs range from fitting door locks and internal grab rails to changing light bulbs and putting up shelves. Often, very small jobs such as fixing loose carpets can prevent a fall and avoid unnecessary distress.

There is a £15 fee for some works and you can have up to four hours of handyperson work. For more information about the service or to access the scheme, please contact us on: 0300 500 80 80 or email: enquiries@nottscc.gov.uk

Making life easier at home

If you are finding it harder to carry out tasks such as dressing, cooking or washing, our occupational therapy videos can help. This series of short clips informs you about simple and inexpensive equipment that is available to keep you living independently at home.

Items like cooking baskets, bed levers and chair raisers can make life much easier for people who are finding it harder to lift, bend, stand or sit because of their age or disability. Each video shows how the equipment works and includes a link to where it can be bought. Watch the videos at: www.nottinghamshire.gov.uk/equipment
You may need some help over the short-term to regain your independence if you have had a fall or operation or are just finding it harder to cope. We will work with you but will look at some short-term approaches that might only involve a few weeks of support until you feel confident that you can continue with fewer or no formal interventions.

Some examples of short-term services are listed below.

Connect service

If you have had a bereavement, are becoming frailer as you grow older or your health is deteriorating because of a long-term condition, you may be finding daily life harder or feeling lonely. The Connect service can help you by finding information about local services, activities and opportunities. If needed, Connect staff can work with you around money issues, housing problems, health management and other things. This short-term support will be tailored to your needs and will focus on achieving what you want in a way that suits you.

If you, or someone you know, might benefit from the advice and support of Connect, phone:

Ashfield, Mansfield, Newark and Sherwood
Tel: 01623 488217

Bassetlaw
Tel: 0115 844 3541

Broxtowe, Gedling and Rushcliffe
Tel: 0115 939 5406

Support to find work

If you are aged 16 or over, have a diagnosed learning disability, Autism or Asperger’s, live in Nottinghamshire and are looking for paid employment, our i-Work team can help you by:

- getting to know you, your skills, interests and support needs;
- carrying out job searches and marketing specifically for you;
- supporting you with travel training, application forms and interviews;
- meeting with the employer and learning the job role ourselves;
- supporting you in your work, providing ongoing one-to-one support;
- encouraging natural support to form and grow within the workplace;
- offering training and support; and
- being available to you, your employer and colleagues to provide support and advice.

Find out more at: www.nottinghamshire.gov.uk/iwork

Short-term support in your own home (reablement)

Reablement is about regaining your skills and confidence to help you live as independently as possible. It is designed to help you to re-learn skills if you are finding it harder to carry out everyday tasks at home, such as getting dressed, getting about your home or making a drink.

Reablement is a free, short-term, time-limited service. It will help us to understand whether you have any ongoing care and support needs.

You can benefit from reablement support if:

- you are older or disabled and feel vulnerable and less confident doing things around the home; or
- you have had an accident or illness that has
caused you to lose the ability to do the things at home you used to do.

Our team will:
• visit you to discuss the kind of support you need and how we can help you;
• agree the support we can offer you in a support plan; and
• work with you to help you achieve what’s been agreed in your plan.

Our staff may suggest different ways for you to do things or offer small items of equipment to make tasks easier. Our staff can also let you know about other kinds and different ways you can pay for it.

After your period of reablement, if you still need ongoing support, you may find that there is a waiting period until a long-term provider is found. During this period, our START service can continue to provide support to you, but there will be a charge for this service.

For more information, visit: www.nottinghamshire.gov.uk/adultsocialcare or phone: 0300 500 80 80.

Notts Enabling Service
This service aims to prevent or delay the need for long-term support by working with you to increase your independence and helping you do things for yourself at home. We can also help you find useful resources in your community to support your social care needs.

If you are an adult with a learning or physical disability or Asperger’s, Promoting Independence Workers (PIWs) can help you to develop, maintain and improve your daily living skills through short-term support.

Support could include help to:
• develop or learn new skills at home, for example domestic tasks and preparing food;
• prepare for and connect with opportunities for voluntary/paid work;
• use technology to aid communication or self-care;
• find places to go and to travel independently;
• build links to support you to meet people and make connections to promote wellbeing; and
• keep safe – support with building confidence and skills.

Where there are few local resources, the co-production team can help you and other people create your own groups and activities dependent on your interests.

If you think you need support from the service, contact: 0300 500 80 80.

Home First Response Service
The Home First Response Service (HFRS) is a short-term rapid response service which can help get you home from hospital quickly and/or support you at home if you have a short-term crisis. It is mainly for people over the age of 65 but can be for younger adults if required.

The service can provide short-term support for up to one week and will:
• help you to recuperate from your illness or short-term crisis;
• support you to regain skills and rebuild your confidence;
• help you live as independently as possible; and
• help you if you are finding it harder to perform everyday tasks at home, for example getting dressed, getting around your home or making a drink.

While you are receiving this service, you may have an assessment to see whether you need ongoing services.

If you are in hospital, you can access the service through the Hospital Social Care Team or, if you are at home, you can contact us on: 0300 500 80 80.
Telecare and Assistive Technology

Assistive Technology enables help to be requested in an emergency and may be useful if you feel vulnerable in your home. Sensors around the home can automatically detect falls, fires, flooding, extreme temperatures, bed wetting and epileptic seizures, and can also tell if you have left your home at night-time, which can be useful for people with dementia.

If the sensors are triggered, an alert is either sent to a carer in your home or (via a special box attached to your phone line) to trained operators at a 24-hour monitoring centre. Staff at the monitoring centre will try to contact you immediately to find out more about your situation, and, if necessary, can arrange a suitable response, such as calling an ambulance or asking a friend or relative to pop round to check that you are OK. If you have issues with memory, other Assistive Technology can prompt you to carry out daily tasks, such as taking your medication.

If you have dementia, it is sometimes difficult for other people to know how well you are managing at home. As part of your assessment for ongoing support, we may use activity sensors around the home to detect your movements (there are no cameras). Information from the activity monitors can help professionals and families to better understand how your dementia is affecting your independence and ensures that the most appropriate care is provided to help you stay in your own home.

For more information, visit: www.nottinghamshire.gov.uk/adultsocialcare or phone: 0300 500 8080.

Assessment beds

If you have been in hospital and are now medically fit to leave, you may still need some support before you can return home. Assessment beds offer you short-term support, usually in a care home, one of our care and support centres or a housing with care scheme. During your stay, you will receive support to regain your independence and confidence. This may include help with dressing, washing and any other tasks you might be finding difficult. As your strength improves, we will gradually reduce the level of support until you are ready to return home. If you are unable to return home, we will work with you to consider other options, such as moving to housing with care or residential care.

Intermediate care

Similar to assessment beds, intermediate care supports you following illness or an operation. This short-term service is provided jointly with health. A multi-disciplinary team, including therapy, nursing and social care staff, will work with you to help you rehabilitate.

Short breaks for adults with learning disabilities

A planned short break is a break from the routine of caring. It is planned in advance and is not the result of an emergency or crisis. Some examples of services that provide a short break are:

- residential and nursing homes;
- dedicated short break units;
- the Shared Lives short break scheme (see page 23); and
- sitting services provided by home care agencies.

To find out if your carer is eligible for a short break, you must have a Care and Support Assessment. Your carer will also need to have a carer’s assessment. The results of these assessments will show the impact that caring is having on your carer’s health, wellbeing and quality of life.

Visit: www.nottinghamshire.gov.uk/adultsocialcare or phone: 0300 500 80 80 to find out more about the assessment process.

For support in Nottinghamshire, visit: www.nottshelpyourself.org.uk or call: 0300 500 80 80
Short breaks units
We offer residential short breaks for adults aged 18-65 who have a moderate to severe learning disability and are living with parents or carers.

Our professional team of staff are skilled at working with people with complex behavioural issues or health needs. We can provide one-to-one support with all areas of care, including personal care, social activities, eating and drinking, moving and handling and mobility. We also offer health services, including PEG feeding, blood monitoring and administration of oxygen and rescue medication for epilepsy.

We have three units across Nottinghamshire, which meet high standards and are open 24-hours, 365 days a year. People who are eligible for our short breaks can book into any of the three units, depending on availability. Phone: 0300 500 80 80.

Brighter Futures (younger adults)
Brighter Futures supports younger adults across Nottinghamshire to maintain or achieve independence, build positive connections and improve their wellbeing. The service can help with things like finding accommodation, accessing specialist services, financial issues, claiming benefits and finding local courses or activities.

Brighter Futures offers a personalised service, based on what help you need and working together to agree how to achieve your goals. It is for people who have a learning disability, autistic spectrum disorder or acquired brain injury and need help with housing-related support, improving health and wellbeing, building networks of support or getting involved in their community. Where possible, Brighter Futures aims to support people so they do not require formal social care support.

0300 500 80 80
Looking after someone

You are a carer if you provide unpaid support to a family member, neighbour or friend. They may need support because they are ill, frail, disabled, or have a mental health or substance misuse issue.

The support you provide could include washing and dressing, shopping and food preparation, helping with laundry or housework, keeping someone company, helping someone take medication, emotional support, helping to manage difficult behaviour, or making sure someone is safe.

You are still a carer if you don’t live with the person you care for, are not the only person providing care for someone, are caring for more than one person or are not related to the person you care for.

Being a carer may affect your health, work, social life, finances, education, or family and personal life. It is important that you know what help is available to help you balance your caring life with a life of your own.

There are various local and national organisations that provide support to carers, and Nottinghamshire County Council and health services may be able to provide additional support.

Nottinghamshire Carers Hub

Carers Trust East Midlands provides timely, personalised information and support via the Nottinghamshire Carers Hub to make caring for a loved one easier. The scheme is funded by Nottinghamshire County Council and the local NHS.

The Nottinghamshire Carers Hub can provide support in various ways, for example free access to:

- information advice and guidance;
- signposting to other organisations;
- access to carers’ groups and drop-ins;
- free health and wellbeing memberships;
- access to carers’ breaks;
- free training and caring support;
- ‘Carers Smart’ benefits and discounts;
- carers’ grants; and
- peer support.

For more information, contact the Nottinghamshire Carers Hub.
Tel: 0115 824 8824

Web: www.carerstrustem.org/hub
Facebook: @CTEastMidlands
Twitter: @CarersTrustEM

Carers’ information, advice and support

We can provide you with information about services available to support you with your caring role, via our Customer Service Centre. Advisers at the Customer Service Centre can also arrange for an assessment for the person you are caring for, or for you as a carer.

For more information, contact the Customer Service Centre on: 0300 500 80 80, Monday to Friday, 8.00am to 6.00pm, or email: enquiries@nottscc.gov.uk

Carers’ emergency card

The carers’ emergency card is a free card which you carry with you and which identifies you as a carer in an emergency. It will alert anyone who finds it that you are a carer and that someone you care for may need assistance.

In the event of an emergency, a 24-hour system is put in place to ensure that the person you care for is looked after by people that you have chosen. To apply for an emergency card, contact us on: 0300 500 80 80, or complete the online application form at: www.nottinghamshire.gov.uk/care/adult-social-care/carers/caring-emergencies

Home First Response Service (HFRS)

The HFRS is a short-term, free rapid response service which can help you if you need social care support to remain at home.

HFRS can help you get home from hospital quickly and/or support you at home if you have a short-term crisis and are therefore at risk of unnecessary admission to hospital or urgent short-term care in a care home. This includes situations where your main carer is temporarily unable to look after you, e.g. due to ill health or an unexpected event.
The service is mainly for people over the age of 65, but can be for younger adults if required, and will provide short-term support for one to seven days.

The service will:

• help you to recuperate from your illness or short-term crisis;
• support you to regain skills and rebuild your confidence;
• help you live as independently as possible; and
• help you if you are struggling with everyday tasks at home, e.g. getting dressed, getting about your home or making a drink.

For more information contact us on: 0300 500 80 80.

Carers’ assessment
If your caring role is affecting your health or wellbeing, you may want to ask for a carers’ assessment. The assessment is about you, not the person you care for. It focuses on your health, work, social life, finances, education, or family and personal life.

The assessment can be offered in a number of ways, including a self-assessment online (which is followed up by a telephone call from a social care worker), a telephone assessment with a social care worker, or face-to-face at a social care clinic or in your own home.

To request a carers’ assessment contact us on: 0300 500 80 80 or visit: www.nottinghamshire.gov.uk/adultsocialcare

If you need some help for the person you care for, or you want a regular break from caring, the person that you are caring for may also need an assessment.

Section 3: Helping you to be independent over the longer-term

Support plan
Most people will be supported to help themselves or receive short-term interventions. For a small number of people this is not enough. After working with you to identify available community resources and try short-term options (see pages 15 to 20), you may find that you need a longer-term solution.

By understanding what you want to achieve and setting short-term goals to help you get to where you want to be, the right balance can be achieved between support for as long as is needed and increasing your abilities and independence over time.

We can work with you to develop a support plan which will set the goals you want to achieve to improve your independence and wellbeing.

We follow national, government-set regulations when deciding who is eligible to receive community care support funded by the Council. The regulations are there to ensure that all councils make decisions about who gets help in a similar way.

If you are eligible for support, we will:

• encourage you to find solutions, if possible, by providing you with information and advice;
• consider with you, how people around you can help (for example, family members, friends and local organisations);
• provide help for only as long as it is needed to enable you to become, and stay, as independent as possible in your home; and
• meet your needs in the most cost-effective way.

If you have explored sections one and two and still feel like you need more support, please contact us on: 0300 500 80 80 for information and advice.
Will I have to pay towards my care?

Most people will have to pay something towards the cost of the care or support they receive. This is so we can concentrate our limited resources on preventing people’s needs from escalating and to provide support to as many people as possible.

A member of staff will talk to you about your financial circumstances to decide how much you will need to pay towards your services. If you have eligible needs, you will be allocated a personal budget – this is the amount it will cost to meet your eligible needs. Depending on your finances and eligibility, we may contribute towards your personal budget.

How would a personal budget be paid to me?

There are three ways to receive any Council contribution towards your personal budget:

1. Direct payment – this is a cash payment we give you (if you are eligible) so that you can buy the support you need yourself. A direct payment gives you the most flexibility and control over your support. You also have more responsibility for arranging your support.

2. Mixed personal budget – you can receive part of your personal budget as a direct payment to arrange some of your support yourself and ask us to arrange the rest with a managed personal budget.

3. Managed personal budget – we will arrange the services that meet your support needs for you. A managed personal budget is less flexible than a direct payment, but you have less responsibility for arranging your support.

Arranging services on your behalf

If you pay for all of your own care, and you want us to help arrange community-based services on your behalf, there is a charge of £10.26 per four-week period for this ‘brokerage’ service. It may include things like:

- ringing round providers to discuss your requirements;
- taking you to visit a provider;
- negotiating rates with providers;
- arranging taster sessions;
- quality monitoring of providers and services; and
- management of payments and resolving queries.

If you are receiving Nottinghamshire County Council-run day care or respite, or your support costs less than £84.40 per four-week period, you will not be subject to the charge.

Power of Attorney

A Lasting Power of Attorney (LPA) is a legal document that lets you (the ‘donor’) appoint one or more people (known as ‘attorneys’) to help you make decisions or to make decisions on your behalf. This gives you more control over what happens to you if you have an accident or an illness and can’t make your own decisions.

You can arrange an LPA by going to: www.gov.uk/power-of-attorney/ The current cost for doing this online is £82 which could save you money compared to using a solicitor.

For care and support services in Nottinghamshire:

www.nottshelpyourself.org.uk
0300 500 80 80

For support in Nottinghamshire, visit: www.nottshelpyourself.org.uk or call: 0300 500 80 80
Claiming benefits

You could receive benefits if you:

- have a long-term illness or disability;
- care for someone; and/or
- are over pension age.

If you are looking for advice on your potential benefits entitlement, you can self-refer to our Benefits Team via the Customer Service Centre on: 0300 500 80 80.

Longer-term services

Following an assessment of your needs, there are several options that could help you. We will ensure that your support is appropriate to your needs and will keep your progress under review.

Services include:

- Support at home:
  - Personal Assistants: below.
  - Home care: below.
- Residential care: page 25.

Support at home

**Personal Assistants**

If you need help with everyday tasks such as getting washed and dressed, getting out and about, preparing and cooking food or healthcare support, a Personal Assistant (PA) may be able to help you with your care and support.

Employing your own PA can increase the choice you have in deciding how your support needs are met, who cares for you and what tasks they do. However, you will have responsibilities as an employer, including having Employers’ Liability Insurance, carrying out ‘Right to Work’ checks and managing the recruitment and payroll responsibilities or registering with the Council’s Accredited Direct Payment Support Service if you don’t wish to do this yourself.

We have a register of PAs who have had Disclosure and Barring Service (formerly CRB) checks and have received training. Find out more about employing a PA and view our register at: www.nottinghamshire.gov.uk/personal-assistants

**Home care**

If you are an older person or have a physical disability, learning disability or mental health needs, you may be eligible for home care support.

Home care staff can help you to meet your personal goals and live a more independent life. Home care staff could support you with things such as getting up so you are ready for your day, or helping you to get out and about so you can continue to be part of your local community. They may also help with some practical tasks like laundry, shopping and some meal preparation.

The aim of support in your home is to increase or maintain your independence so that you can remain living at home for as long as possible.

The amount of support you require may reduce over time as you regain your ability to do things for yourself; we will work with you to review the level of support you need.

Home care services can be provided by:
• independent agencies;
• voluntary agencies; or
• individuals.

Home care can be paid for using a direct payment, if you have one, see page 21 for more information.

Home care staff must be specially trained in areas such as manual handling, first aid and food hygiene. They will also need to have had background checks with the Disclosure and Barring Service (DBS), previously known as Criminal Records Bureau checks.

Some agencies offer a night sitting or even a live-in service and some are also registered as nursing agencies, meaning they can provide registered nurses if needed. All home care organisations that provide personal care must register with, and be inspected by, the Care Quality Commission (CQC), which ensures that quality standards are met by the service and that staff are appropriately trained to do their job.

Phone: 0300 500 80 80 or visit: www.nottshelpyourself.org.uk for more support in Nottinghamshire.

Shared Lives

Shared Lives is a housing scheme aiming to help people experience ordinary life with real relationships. Support is mainly provided within, or connected to, a Shared Lives carer’s own home. Carers are trained to support older people, people with physical disabilities, learning disabilities or mental health needs.

It is a regulated service for people who:
• need support to live in the community;
• are over 18; and
• are eligible for social care services.

Shared Lives can be delivered as:
• sharing or living in a Shared Lives carer’s home and getting support with everyday life;
• daytime support – regular support sessions in the carer’s home and out in the community; or
• outreach support – in your own home and the carer provides help where needed so you can live independently.

If Shared Lives is suitable for your needs following an assessment, we will try to match you with a carer. This means you get a chance to find out about the carer and they can find out about you to make sure everyone is happy before any support starts.

You will have to pay towards your living costs if you live with a carer or stay with them in their home.

Call: 0300 500 80 80 or visit: www.nottshelpyourself.org.uk for more support in Nottinghamshire.

For support in Nottinghamshire, visit: www.nottshelpyourself.org.uk or call: 0300 500 80 80
Housing with care

Housing with care schemes offer people the privacy of their own self-contained home and the security of tenancy or ownership rights within a community setting, with personal care readily available. This type of scheme is generally for over 55s but can also be appropriate for some younger people who have personal care needs.

Housing with care, which is also known as ‘extra care’, is an extension to traditional supported housing and each scheme is different. It offers:

**Privacy, independence and security** – you have the freedom to live your life how you wish, in your own home with your own front door; you can come and go as you please.

**Control and choice** – you keep complete control over your finances. Depending on the accommodation on offer within each scheme, you can rent, buy or part own your home.

**Support and flexibility** – support is on hand to help you with everyday care and support tasks. The support provided is tailored to your own situation and changes according to your needs.

**Stability** – if your needs increase, you don’t have to move to get more support, as the care offered by the on-site care team can change according to your needs.

**Sense of community** – communal areas allow you to easily socialise with other residents and join in group activities.

There are now 13 housing with care schemes in Nottinghamshire:
- Westmorland House in Harworth
- Abbey Grove in Worksop
- Vale View in Newark
- Moorfield Court in Southwell
- Hilton Grange in Edwalton
- Cricketers Court in West Bridgford
- Spring Meadows in Cotgrave
- St Andrews in Mapperley
- Bilsthorpe Bungalows in Bilsthorpe
- Poppy Fields in Mansfield
- Darlison Court in Hucknall
- Gladstone House in Newark
- Town View in Mansfield

As part of our commitment to improving choice and support for older adults, we are continuing to develop further housing with care schemes to increase the number of available places across the county. You will need a social care assessment to be considered for housing with care accommodation, as it is only for people with personal care needs. However, the schemes also have other accommodation without personal care, so please contact each landlord to find out the criteria for each scheme.

For further information, call: **0300 500 80 80** or visit: [www.nottinghamshire.gov.uk/care/adult-social-care](http://www.nottinghamshire.gov.uk/care/adult-social-care)

---

**Housing options for younger adults**

We aim to help people maintain their independence. If you are eligible for social care services, we can help you consider which housing and support option might best meet your needs.

You may wish to continue living in your own home and we may be able to help you do this. We could arrange for someone to visit you and help you develop or maintain your independent living skills or we could assess your home for possible adaptations. Alternatively, one of our supported living schemes may meet your needs. This offers a level of independence and the chance to meet other people in similar situations. People with high levels of needs can live in supported living with appropriate support in place. Staff will be available at agreed times and will work with you to help you. People living in supported living usually have their own tenancy and have access to a range of welfare benefits. There are schemes in every district of the county.

In exceptional cases, you may need to consider residential care on either a short- or long-term basis.

Paying for care is discussed on page 30.
Residential care

Before you think about residential care, please take time to look at the other options that are available to help you stay living independently at home. You may find that equipment, an adaptation to your home or support with washing and dressing means that you can stay in your own home for longer.

First, visit: www.nottshelpyourself.org.uk or phone: 0300 500 80 80 for details about a range of services which can help you. There are also other options when you can no longer stay at home, such as Shared Lives or housing with care (see page 23).

If you are considering residential care, we would advise you to contact us for a conversation about your needs. This is strongly advised, even if you are funding the cost of your own care. Firstly, it will ensure that you have taken full advantage of our expertise – we can provide information and advice and possibly suggest alternative ways to meet your needs. Secondly, if you move into a care home while you are funding your own care, and your assets fall below the self-funder threshold of £23,250, you need to be aware that we will not automatically fund the full cost of the care home you are living in. In this situation, we will undertake a Care and Support Assessment and may not fund your care if you do not have assessed eligible needs. Or, if you have assessed eligible needs, we may only be able to contribute less than the cost of the care home you have been living in.

If you are considering residential care for yourself or a family member, please contact us on: 0300 500 80 80; we will be happy to assist you.

Types of homes

Care homes (personal care only)
If you need someone to look after you 24 hours a day, but don’t need nursing care, a care home offering only personal care may be the best option. Personal care includes bathing, feeding, dressing and help with moving.

Care homes with nursing
Care homes with nursing provide the same personal care support as a care home, but with fully-trained nursing staff available 24 hours a day. If you think you may need nursing care in a home, you will need to be visited by a member of our social care team to work out what care you will need. This visit might be in your own home, or in hospital if you’ve been ill, or in a care home. It is important that you have this nursing assessment before you move into a care home with nursing, so that you do not pay more for your care than you need to.

If a care home with nursing is the best solution for you, we will give you information to help you find a home which meets your care requirements. A contribution to the nursing care part of your fees is paid by the NHS to the home directly; see page 30 for more information.

Quality in care homes
Our staff visit each care home in Nottinghamshire every year and assess a range of factors, including how effectively managed the service is, how people are protected, if they are supported by competent staff, what their experience is like and whether care is focused around the person’s needs and wishes. Judgements on each standard are made and are used to give each older adults’ care home a quality rating, with band one being the lowest quality and band five the highest.

For further information on quality bands, see page 29.

The Care Quality Commission (CQC) also inspects and reports on standards in care homes, see page 33 for more information about the CQC.

What happens if my relative lives outside Nottinghamshire?
If you are considering a home outside Nottinghamshire because it is nearer to your family or friends, then you may still be eligible for a financial contribution towards your placement. We will be able to give you more information about this during an assessment.
Specialist dementia care

Usually, the initial point of contact to access dementia care services is either your GP (for healthcare solutions) or us (for most other services). Your GP, as well as discussing your concerns, will be able to refer you to the Memory Assessment Service in your area. This service will be able to carry out a series of tests which will establish the nature of your condition and advise whether treatment is available.

You will also be able to access the Dementia Advice and Support Service which can give advice about dementia and local support services.

If the time comes when remaining at home is no longer possible, the benefits of moving into a care home may need to be considered. Differentiating one care home from another can be difficult but the quality and quantity of staff training is especially important, along with the turnover of staff, as continuity of relationships in this type of home is critical.

Advice on choosing care homes for people with dementia is available from Alzheimer’s Society: www.alzheimers.org.uk or Age UK: www.ageuk.org.uk and a checklist is included on page 57 to help when making your decision. We have also introduced the Dementia Quality Mark to recognise high-quality dementia care in care homes.

Dementia Quality Mark

The Dementia Quality Mark (DQM) was introduced to set the standard for high-quality dementia care in Nottinghamshire care homes. It is awarded to care homes that provide a high standard of care to people living with dementia.

Criteria that the homes must meet and evidence to achieve the award include: having a positive attitude towards dementia, allowing people with dementia emotional and physical freedom, ensuring daily routines are carried out, and providing meaningful activities and stimulation.

Care homes that are awarded the DQM receive an enhanced payment for residents living with dementia identified as requiring more specialist care.

More information and a list of current homes with the DQM can be found at: www.nottinghamshire.gov.uk/care/adult-social-care/somewhere-to-live/somewhere-to-live

Nottinghamshire Care Association

Nottinghamshire Care Association (NCA) is a not-for-profit organisation that represents a wide range of independent care homes throughout Nottinghamshire and Nottingham City.

What do independent homes have to offer a resident?

Choice

Independent homes range from small, comfortable and homely through to five-star hotel-style luxury, with a vast range in between. NCA members’ homes come in all shapes, sizes and locations, nearly every town has an independent care home. Although, in Nottinghamshire, all nursing homes are provided by the independent sector.

Uniqueness

NCA members’ homes each provide a unique service, but all enable older people to enjoy what is best for individual needs. For example: if you feel isolated in your own home, you can gain companionship; if you are struggling to cope alone, you can receive 24-hour help; and if you feel like you are a burden, you can find yourself much more independent.

Caring staff

Above all, it is our staff who make the difference: a smile that can make you smile back and feel valued; being dependable and sensitive to your needs also brings renewed confidence; offering help with the things that are hard to do which can makes a difference to your life and results in an important and highly fulfilling role; being on hand 24/7.
High standards
Independent care homes provide care that is over and above the Care Quality Commission’s Fundamental Standards – caring about every aspect of your life including health, diet, exercise, hobbies and social activities. The homes aim to ensure that you continue to enjoy life whilst receiving the very highest standard of care.

All homes provide personal services and registered nursing homes also provide 24/7 qualified nursing care. Some homes also provide dementia care, learning disability support and other more specialist care.

Quality
NCA members are passionate about providing good quality. All independent homes are registered with the Care Quality Commission (CQC) and are subject to stringent inspections by the CQC, the local councils, fire officers, the health and safety executive, environmental health officers and, for nursing homes, by the NHS-CCG. Unsurprisingly, NCA members have a vested interest in providing a high-quality service to all residents. Independent government quality reports on every home can be found on the CQC website: www.cqc.org.uk

Good value
Accommodation and care charges vary according to the service offered and required – but all homes aim to provide good value for money. You may be surprised by how little high-standards of care cost. Although higher quality care often does cost more.

Details of the financial support available can be found elsewhere in this Directory. However, specialist independent financial advice should always be considered.

Website
If you are looking for a care home in Nottinghamshire, why not visit one of our members’ care homes? The NCA website provides some useful information to assist you in choosing an independent care home: www.nca.care

If you go to the ‘Looking for Care’ section of the website there is a database of all homes to search.

Activities of the NCA
The NCA represents individual companies, groups of homes, individuals and charities in the independent care home sector.

The NCA is committed to helping care providers to give the best possible service to vulnerable people – working in partnership with others to make this a reality. The NCA promotes the care sector by lobbying politicians for the benefit of residents, members and staff. NCA lobby for equal, fair and consistent support of residents whether you are in an independent or publicly-owned care home. The NCA works with the statutory authorities to negotiate economic levels of fees from the government and local authorities.

NCA also work with the Care Quality Commission, the local councils and NHS to raise standards and encourage training and development of staff.

Section 4: Financial arrangements for care

Do I need to pay for my own care?

If you are moving into residential care and your savings, which includes your investments and your other assets, are more than £23,250, you will be expected to pay for the full cost of your care and support.

The value of your home will be included in the calculations unless your partner, a relative who is over 60, or under 60 but receiving disability benefits, or a child under 16 who you or a former partner have legal responsibility for, still lives there.

If you are receiving care in your home, the value of that home is not taken into account, but you are still required to pay the full cost of your care if your savings and investments (not including your home) are more than £23,250.

If your savings are less than £14,250, the amount you need to contribute towards your care and support costs will be assessed on your income only.

If your savings and investments fall between £14,250 and £23,250 a sliding scale operates, whereby you contribute £1 per week for each £250 you have above the lower figure, plus a contribution from your income.

If your savings are less than £23,250 or are likely to fall below that level in the near future, please contact us on: 0300 500 80 80 before you arrange your care and support. We will be able to assess your need for care and discuss with you what care and support is available.

Seeking financial advice on paying for care

If you are paying for your own care, meeting the care costs from limited savings and not knowing how long care might be needed can be worrying. Despite this, many people do not seek appropriate financial advice to understand how best to meet the costs; as interest rates remain low it would be prudent to seek advice from a specialist financial adviser.

Money held on deposit can be depleted very quickly if it is being used to pay for care; therefore, it could be sensible to consider other forms of investments that could potentially deliver higher income to meet the fees.

Before deciding on what may be the most appropriate solution for meeting care costs, it would be sensible to talk to a specialist care fees adviser who has the relevant qualification to advise on funding long-term care. You can contact us on: 0300 500 80 80 for information about financial advice and support, visit our website: www.nottinghamshire.gov.uk/care/adult-social-care/paying-for-care/financial-advice-support or contact one of the organisations listed adjacent:

Please note:
We have supplied details of some financial advice services for your information only. The information is not exhaustive and there are more financial advisers available on the market. We have not vetted any financial advisers and are not responsible or liable for them or any advice or services they provide. We
do not endorse or make any representations about any financial advisers, or any results or advice that may be obtained from using them. Before deciding to use any financial adviser, please ensure that you conduct your own prudent checks.

Third party payments

In some cases, the home you choose will cost more than the rate we might pay them. If this is the case, you will need to ask someone, perhaps a family member, a friend or a charity, to make up the difference so you can live in the home. This is known as a ‘third party payment’ or ‘top-up’.

With third party payments, it’s important that the person making the payments is confident they’ll be able to keep up their financial commitment. They also need to be made aware that the third party payment may change at any point in the future.

Nottinghamshire County Council – Banded Fee Rates 2019/20

Older people’s weekly care home fee rates are based on a five-band quality rating scale. Our staff currently visit each care home every year and assess a range of factors to determine how outcomes for residents are being met.

This process is used to determine a quality rating. Band 5 is the highest rating that can be achieved, but it should be noted that, due to the Council regularly reviewing the care homes, the ratings can change.

*See page 33

Please note – the nursing rates above are net and do not include the £165.56 nursing care contribution (see page 30).

The above fees are those that we will pay to the care home if we are contributing towards your care. However, please note that some care homes may charge more, and the difference will need to be paid via a top-up or third party payment, discussed above.

NHS continuing healthcare

NHS continuing healthcare is a package of care arranged and funded by the NHS. It is not means-tested and, to be eligible, your main or primary need must relate to your health and meet the criteria set out by the NHS National Framework.

NHS continuing healthcare support may be provided in a variety of settings including a care home or your own home. If care is provided in a care home, NHS continuing healthcare will cover the care home fees, including the cost of accommodation, personal care and healthcare costs. If it is provided in your own home, it will cover personal care and healthcare costs.
NHS funded nursing care

If you live in a care home that provides nursing care, whether as a temporary or a permanent resident, and you do not meet the eligibility criteria for NHS continuing healthcare, you may be eligible for NHS funded nursing care if you need care from a registered nurse.

This is not means-tested and can be paid directly to the home by the Clinical Commissioning Group (CCG) or paid by us on behalf of the CCG. The current rate is £165.56 a week, but this could change. Contact us for up-to-date figures.

People who receive nursing care are still likely to need to make a financial contribution towards their residential care.

Contact us on: 0300 500 80 80 to find out more about claiming financial support.

Paying for your own care in a care home

Even if you are paying for your own care (if you have assets of over £23,250), we would still advise you to contact us for a care and support assessment. This means that we can make you aware of all the options available. If you do not have an assessment and your assets are at, or fall below £23,250, we may not be able to support you until after you have had an assessment and we can determine that you are receiving the appropriate level of care for your needs. Please contact us on: 0300 500 80 80 for a care and support assessment.

Depending on the type of care and support that you are eligible for, you may be entitled to the following financial support.

Benefits and Pension Credit

If you need someone to help care for you, you may be eligible for Attendance Allowance (AA) or Personal Independence Payment (PIP) – non-means-tested, non-taxable benefits from the Department for Work and Pensions.

Up-to-date figures of what will be paid to you if you are eligible can be found at: www.gov.uk

AA helpline
Tel: 0800 731 0122
Textphone: 0800 731 0317
Monday to Friday, 8.00am to 6.00pm

PIP helpline
Tel: 0800 121 4433
Textphone: 0800 121 4493
Monday to Friday, 8.00am to 6.00pm

You may also be entitled to Pension Credit. Visit: www.gov.uk/pension-credit for more information.

Twelve-week property disregard

If your former home is included in your financial assessment but your other capital is less than £23,250 and your income doesn’t cover your care home fees, we may help with the cost during the first twelve weeks of permanent care, providing we agree that this type of care is needed.

This is known as ‘twelve-week property disregard funding’. During this time, you will still be charged a contribution towards the cost of your care, but not the full cost.

Deferred payment agreements

Once the twelve-week property disregard period has ended, you may be able to have a deferred payment agreement if you are eligible, which means that some of your care costs are set against the value of your home, to be paid when the home is sold. There may be administrative and interest charges for this. We strongly recommend seeking independent financial advice if you are considering this option.

Council Tax exemption

If your property is left empty when you move into a care home, you should receive full exemption from Council Tax until your property is sold.
Section 5: Essential information

Safeguarding adults at risk of abuse and/or neglect

An adult at risk is a person aged 18 years or over who can’t protect themselves from abuse, neglect or from being exploited.

This may be because they have:
• a mental health condition or learning disability;
• a physical impairment;
• a sensory impairment;
• some form of illness; or
• are old and frail.

What is safeguarding?
Safeguarding means protecting an adult’s right to live in safety, free from abuse and neglect. It is about people and organisations working together to prevent and stop both the risks and experience of abuse or neglect, whilst making sure that the adult’s wellbeing is promoted, including consideration of their views, wishes, feelings and beliefs in deciding on any action.

The aim of adult safeguarding is to:
• stop abuse or neglect wherever possible;
• prevent harm and reduce the risk of abuse or neglect to adults with care and support needs;
• safeguard adults in a way that supports them to make choices and control how they live, focusing on outcomes that are important to them;
• concentrate on improving life for the adults concerned;
• raise public awareness so that communities, alongside professionals, play their part in preventing, identifying and responding to abuse and neglect; and
• provide accessible information and support to help people understand the different types of abuse, how to stay safe and how to raise a concern about the safety or wellbeing of an adult, and address what has caused the abuse or neglect.

Forms of abuse could be physical, sexual, psychological, discriminatory or financial. It could also be self-neglect or organisational abuse, where the abuse is a result of the way a service or organisation is run. Abuse might also be linked to modern slavery or domestic abuse. It can happen anywhere – in someone’s own home, in a care home, a hospital, in a workplace, at a day centre or educational establishment, in supported housing or in the street.

What to do if you think someone is at risk
We are committed to ensuring that adults who use services are protected from abuse and neglect and to responding promptly when abuse is suspected. All agencies that provide services to adults have a zero-tolerance approach towards abuse and neglect.

Contact us on: 0300 500 80 80 to report a safeguarding incident or for further help and advice. Your concerns will be taken seriously and will receive prompt attention.

If there is danger to life, a risk of injury, or a crime is taking place and immediate action is needed, call the police on: 999.

End of life care

Although the subject of dying is often painful to contemplate, it is essential that you and your relatives discuss your wishes as you near the end of your life. Good planning for all your needs should mean that you can (if you choose) remain in your home or care home in your last days and not be admitted to hospital.

When choosing a service, such as home care or residential care, you should consider its end of life care philosophy and policies. Enabling people to die in comfort and with dignity is a core part of providing care, and the way care professionals approach the process will be incredibly important for you, your family and carers.

The service should have an open approach to end of life care. It should initiate conversation with you and your family and work with your GP to ensure your needs and wishes are discussed and planned for. An end of life care plan should also be drawn up, establish your preferences and choices.

You could complete the Notts Advance Care Plan document on: www.epaccs.com to help with outlining your wishes. This document is designed to help you prepare for the future and gives you an opportunity to think about, talk about and write down your preferences and priorities for care at the end of life. The information will be transferred onto a Respect Form by your doctor or nurse as a means of ensuring that priorities for care are respected by all social and healthcare professionals. Visit: https://midnottspathways.nhs.uk/media/2362/2017_04_29_respect-patient-guide-v10.pdf

It is also important to know that all health and social care staff must be trained in communication regarding end of life care and will be trained in needs assessments for carers and families.

It is worth asking providers whether they are working towards The Gold Standards Framework. This can be used in various settings, for example hospitals, primary care and care homes, to improve the co-ordination and communication between different organisations involved in providing care for someone near the end of their life.

For more information about end of life care, and for links to other useful organisations, visit: www.nottshelpyourself.org.uk

Registering a death

If a loved one has passed away, it may feel like many things need to be arranged. Our registration team can help you through this process.

One of the first things you will need to do is make an appointment to register the death. You can do this online at: www.nottinghamshire.gov.uk/registrars or call: 0300 500 80 80.

Registering the death will provide you with the documents needed to arrange the funeral and to deal with the deceased’s estate.

A death should be registered within five days, unless the Coroner is involved. We can also pass the information onto other relevant agencies on your behalf after you have registered a death, so that you do not have to contact so many organisations.

Comments, compliments and complaints

All organisations need to know how they are performing. They are happy to receive your feedback on their service whether it is a compliment or complaint. Tell them what you think – your comments can be used constructively to improve the service.

You should feel able to complain about any aspect of your care that affects your happiness or comfort.

This could be about the way you are treated by staff or the quality of the food. You can also make comments and suggestions about possible improvements to your surroundings and the services provided.

Making a complaint should not be made difficult for you. Providers are required to have a simple and easy to use complaints procedure that they will
be happy to give you. If you are concerned about the care that you, a friend or a relative is receiving, it makes sense to speak to the manager before you take any further action. The problem may be resolved quite easily once they are made aware of it. However, if you need to make a formal complaint, you should initially contact the registered owners of the service. They have a duty to respond to any complaints made.

If we have arranged and funded your care and you wish to make a complaint to us, phone: 0300 500 80 80, email: enquiries@nottscc.gov.uk or visit: www.nottinghamshire.gov.uk/contact-and-complaints/complaints/make-a-complaint-comment-or-compliment

If you believe there has been a breach of regulations, you may also wish to contact the Care Quality Commission.

Inspecting and regulating care services

Health and social care services must be registered to show that they meet a set of standards.

The Care Quality Commission (CQC) is the independent regulator of health and social care in England. It registers care providers and inspects and rates services. When things go wrong, the CQC can also take action to protect people who use services.

After an inspection of a care home or home care agency, the CQC publishes a report of what it found. The report looks at how well the service meets the CQC’s five key questions: Is the service safe? Effective? Caring? Responsive to people’s needs? Well-led?

Each care home and home care agency will get an overall rating of outstanding, good, requires improvement or inadequate. It will also get ratings for each key question. The ratings mean you can easily see where a service is performing well, and where it needs to improve.

It’s always a good idea to check inspection reports and ratings when choosing a care service. You can find reports and ratings on the CQC’s website (www.cqc.org.uk). Care providers must also display their latest rating at their premises and on their website.

You can also tell the CQC about your experiences of care – good or bad. It can use your information to see where it should inspect next, and what to look out for when it does. If you want to share your experience of care, visit: www.cqc.org.uk/share

Finding care in your area

Looking for care in your area? Want to know the quality rating of providers you’re considering? Care Choices, publisher of this Directory, has a website providing comprehensive details of care providers as well as essential information.

You can search by postcode, county or region for care homes, care homes with nursing and home care providers that meet your needs across the country.

Your search can be refined by the type of care you
are looking for and the results can be sent to you by email. They can also be saved and emailed to others.

The website includes detailed information for each care provider, including the address, phone number and the service’s latest CQC inspection report and rating (see page 33), indicating the quality of care provided.

You can also view an electronic version of this Directory on the site and have it read to you by using the ‘Recite Me’ function. Visit: www.carechoices.co.uk

You can also use www.nottshelpyourself.org.uk to search for services and support in Nottinghamshire. If you don’t have access to the internet, you can visit your local library where staff can help you find the information you need.

Or you can phone Nottinghamshire County Council on: 0300 500 80 80 where our advisers can guide you through your options.

Supporting Independence

Providing a home support service with a difference. We offer a culturally appropriate and flexible care service tailored to individual needs.

Our diverse team of well-trained support workers can assist you with:

- **Personal Care** - Help with washing, bathing, dressing etc.
- **Social Care** - Assisting with outdoor activities such as doctor/hospital appointments, shopping etc.
- **Domestic Care** - Assist with cleaning, laundry, ironing etc.
- **Meal & Dietary Care** - Food preparation in your own home, assistance with feeding etc.

To discuss our full services and your personal requirements call us on:

0115 9705832 or email acecare@live.co.uk

Do you need a helping hand?

If you are looking for an alternative to residential care or extra support for those everyday tasks that are becoming difficult for you or a loved one – then we’re here to help in Nottingham from 30 minutes per week to full-time live-in care.

Our care teams have been providing award-winning quality home care since 1989 and can help with: personal care, housekeeping, help getting around or even to provide a break to an existing family member or care-giver.

Looking for care? 0808 274 2935

ASHA Healthcare has over 30 years of experience in delivering care and providing support to vulnerable adults. Our ethos centres around ensuring that every one of our clients is enabled to live an independent lifestyle within our Homes whilst maintaining their health, safety and wellbeing. We actively encourage family and friends to play an active role in helping us to provide a bespoke service.

ASHA Healthcare is always keen to integrate the local community and looks to organise a number of events to encourage local residents to visit our Homes.

Wilford View Care Home
Brookthorpe Way, Nottingham NG11 7FB

Beautifully designed new 83 bed Care home in the parish of Wilford, Nottingham

OPENING IN AUGUST 2019
### Residential dementia care checklist

#### Design
- Are there clear signs throughout the home?  
- Has the home been designed or adapted for people with dementia?  
- Are the home and grounds secure?  
- Are there prompts outside the residents' rooms to help people identify their own?  
- Is the décor familiar to your loved one?  

#### Health
- Can residents get help with eating and drinking?  
- How often does the home review residents' medication?  
- Does the home offer help if a resident needs assistance taking medication?  
- Do GPs visit the home regularly?  

#### Staff
- Are staff trained to identify when a resident might be unwell?  
- Are staff trained to spot when someone needs to go to the toilet?  
- Do the staff have any dementia specific training/experience?  
- Will your loved one have a member of staff specifically responsible for their care?  

#### Activities
- Are residents able to join in with household tasks like folding washing?  
- Are there activities on each day?  
- Can residents walk around outside on their own?  
- Are residents sitting in front of the TV or are they active and engaged?  
- Are there rummage boxes around?  

#### Approach to care
- Does the home follow a specific approach to dementia therapy, for example, validation therapy?  
- Will the home keep you informed about changes to your loved one's care?  
- Does the home have a specific approach to end of life care?  
- Does the home keep up to date with best practice in dementia care?  

---

We suggest that you take paper with you when visiting care homes so that you can make notes. Please use this checklist in conjunction with the care homes checklist on page 55. You can download and print this checklist at [www.carechoices.co.uk/checklists](http://www.carechoices.co.uk/checklists).

Our three Residential Care Homes in Nottinghamshire make up the Ashmere Care Centre which features:

- Single and double en-suite bedrooms with emergency call buttons
- Indoor hydrotherapy pool and jacuzzi
- Full time activity co-ordinators
- Social services and privately funded residents
- Lunch club, day care, short term and long term care
- Specialist dementia unit • Private visitors lounge
- Plenty of visitor parking • Front, rear and courtyard gardens

Why Choose Ashmere Notts?
We have won numerous awards which demonstrate our top quality homes and staff. However, we never rest on our laurels and as such, we are constantly looking for ways to improve. We work alongside our residents and their families to ensure a unified approach in aspiring to have the best care homes in Nottinghamshire.

At Langwith Lodge Residential Home, we endeavour to give your loved one the care that they deserve.

The main Lodge is a residential care home, and Lake View cares for people with dementia.

Come and visit us at the home, and see for yourself.

Please call for further details:

Welcome to our homes...

Our care homes have built up excellent reputations within their local communities with the vast majority of our new residents coming through recommendations from others. This has been established through our commitment to the on-going provision of dedicated quality care delivered within a high quality, yet homely environment.

We welcome visitors into our homes and encourage family members and friends to get involved in their loved-ones care and become part of the care home’s life. Those looking for a care home are welcome to visit at any time, an appointment is not always necessary.

- You are reading this because you are thinking about finding a care home for a loved one or even yourself
- You’re trying to ensure you are making the right decision to find the best possible care for your family member
- Are you unsure what funding you are entitled to, how to work through all the paperwork?

It can be a very challenging process - We will help and advise you. Let our management team offer professional support and guidance from people who genuinely care.

Avery Healthcare invites you to the city’s premium care community, where outstanding care is delivered alongside luxurious living. The community comprises two high quality retirement and care homes, Acer Court and Alder House, (both rated Good by the CQC) which share the same values for excellence and deliver the same first class care in friendly surroundings.

Life is centred on resident well-being, which includes a comprehensive range of activities at both homes; it’s a life full of experiences within the daily calendar of events both inside the homes, in the community, and on trips out.

Both homes offer beautifully decorated en-suite rooms, quality restaurant style dining, quiet lounges and lovely landscaped gardens for relaxing in, including the delights of an aviary. They share the use of a cinema, enjoy company in the tea shop and travel together to events in the dedicated Avery minibus. There are also larger companion rooms and apartments available for couples wishing to stay together whilst in care.

An active and fulfilling life, supporting your independence, but secure in knowing support is always on hand.

hello@idealcarehomes.co.uk
idealcarehomes.co.uk
At Stoke House we offer full time residential and nursing care to older people who find managing in their own homes increasingly difficult. We have a dedicated activity team whose focus is to ensure that all residents live have meaning and purpose, from helping out in our tuck shop to caring for our pets. We have strong links with the local community and we arrange regular trips to surrounding areas of interest.

To ensure that the care we provide matches the individual needs and preferences, we encourage people living with us and their loved ones to be actively involved in creating comprehensive care plans, with dignity and respect at the centre of what we do.

We have recently been awarded Nottingham Post Carer’s award where our activities co-ordinator won Care Home Worker of the Year and we were also a Runner Up for Care Home of the Year.

For more information please call us on 0115 940 0635 or email us at admin@stokehouse.com

www.stokehouse.com

24-26 Stoke Lane, Gedling, Nottingham, Nottinghamshire, NG4 2QP
Ashlands is a family run Care Home where excellence of care is the standard. With half an acre of pretty gardens backing on to woodlands, our residents have the space for quiet reflection while being close to local amenities. The two South facing sitting rooms and large sunroom all have full length windows and, along with the dining room, all overlook the rear garden.

Our Services Include:

- Our care manager has several years care experience and leads a team of highly trained staff
- Capacity for 30 residents, both for old age and dementia
- The majority of our rooms have en-suite WC facilities
- Long and short stay, respite and day care available
- Full-time activities co-ordinator, music, entertainment and regular outings
- Hair dressing, Chiropody and motivation therapy
- Award winning gardens giving a safe and quiet area to relax
- In-house cooks producing a varied range of freshly made meals, with special diets catered for
- Second floor accessed by lift, with wheelchair access throughout
- TV and phone available for every room
- All rooms have Nurse call points and are decorated and furnished to a high standard
- Close to local shops and public transport
- Registered with the CQC and Nottinghamshire County Council

We welcome visits at any time to come and meet the staff and residents and have a tour of the grounds and facilities.

Haywood Oaks Care Home
Kirby Close, Haywood Oaks Estate,
Blidworth, Notinghamshire NG21 0TT

Haywood Oaks is a small, family owned care home for older people, located on the outskirts of beautiful Sherwood Forest, in a village setting. Haywood Oaks is a purpose-built care home that provides outstanding care for older people in a bright, airy and relaxed environment. Our communal areas are tastefully decorated and furnished to a high standard.

- Friendly & relaxed atmosphere
- A dedicated and committed staff team
- Person-centred care plans to cater for individual needs
- All rooms individually furnished to personal taste
- Extensive menu with locally sourced, home cooked food
- Long term, short-term and respite stay available
- Families & friends are made most welcome

“ We provide a happy, caring, safe and companionable home for our residents, where independence and individuality are encouraged and respected. ”

When you love every day, it’s magic.

Every day in our Nottingham homes is sprinkled with ‘Magic Moments’. One day our residents might be out and about visiting local sights, the next, taking part in our exercise classes or alternatively they may just choose to ‘stick to their knitting!’.

When everything is right, bright and beautifully done – it’s a place where you can truly love every day.

For more information please call us to find out more.

We feel life is to be lived and loved, and that shouldn’t change as the years go by. Many of our residents find that their world expands when they join us, they revive abandoned interests, explore new hobbies, widen their social circle and rediscover their zest for life. Personal choice, without pressure, defines everyone’s lifestyle here at Acorn House.

Acorn House offers 24-hour residential accommodation for later years and specialist dementia care in a purpose-built, 64-bedroom home in Nottingham.

Live life your way at Acorn House

Offering Residential & Nursing Care for Older People and Specialist Dementia and Palliative Care for Adults Aged 50+

We understand how confusing it can be choosing a care home for yourself, or a loved one. Monarch Healthcare homes have an open-door policy and we’re happy to give impartial advice and a tour of our homes without obligation. Our dedicated team of nurses and carers are expertly trained to discuss your requirements and advise you about the specialist dementia care and devoted palliative care services we offer.

We encourage you to visit our homes, sample a meal from our restaurant or join in with one of our social events to help make up your mind. Monarch Healthcare works hard on its dementia strategy and believes in a completely person-centred approach to care. In all our homes we put the needs of our residents first, we’re dedicated to understanding the needs of our residents, providing excellent standards in our hospitality services and making each day fulfilling and meaningful.

Our homes are shaped by our residents needs and preferences, from décor to menu choices. We work in your home.

For more information, or to request a brochure, please contact the home, or head office on tel: 01159 844839 email: info@monarchhealthcare.co.uk

Eastgate Care

Our priorities are quality care and comfort for all residents

- Dementia, Nursing, Convalescence, Respite, Personal & Residential care
- Single spacious en-suite rooms tastefully decorated
- Flat screen TV & Wifi access
- Fully qualified Nursing Staff & 24 hour specialist nurse call systems
- Links with local GP, chiropodist, optician, dentist, hairdresser, minister
- Dedicated Activities Co-ordinators & regularly organised pastimes and pursuits
- Comfortable welcoming lounges with fabulous canal-side or garden views

"The staff know my mother really well, likes and dislikes. They are kind, caring and always willing to have a joke with her. She loves the food and enjoys sitting in the music lounge. There is regular entertainment, which all the residents seem to love. They do a great job, I can not thank them enough."

At Respectful Care, we know how difficult it can be to place your trust in strangers who will go into the home of your loved one and provide them with the vital daily care they need. We recognise that each of our clients is an individual, someone with their own diverse needs and requirements. That’s why we invest our time getting to know you, and together create a personalised plan to enable you to live a life that is as independent, active and fulfilled as possible.

“We had previously been terribly let down by a care provider and this has been detrimental to dad’s health and our confidence in care agencies. But I am happy to report that Respectful Care have been a breath of fresh air and have demonstrated how care can be and should be. We are very lucky to have them play a part with dad’s care.” – Mrs B.B

Some of the ways we can support you:

• Personal Care
• Dementia Care
• Palliative Care
• Companionship Services
• Medication Assistance
• Shopping & Meal Preparation
• Social Activities
• Respite Care
• Live In Care
• Domestic Services

“Initial anxiety about the adequacy of care for our mum has quickly changed to great surprise and relief. We are thrilled with the patience, professionalism and compassion shown towards her. Your carers work hard as a team providing the right encouragement to get mum up and about in the morning and throughout the day.” – Mr P.B
